

Solar Installation

HOMEOWNER PROJECT ROADMAP

What to expect before, during, and after installation.

1. Project Initiation

Your Solar Consultant performs a site survey on your home. Rhythm Solar's Proposals & Design team designs your Solar System custom tailored to your needs.

EVERY SOLAR INSTALL IS UNIQUE. THIS TIMELINE IS A GENERAL GUIDELINE. QUESTIONS? CALL US! 856.724.2611

THEIR SUPERPOWER IS PICKING UP FROM HERE, COORDINATING EVERYTHING FROM CONTRACT TO COMMISSION.

PLEASE NOTE!

SOLAR CARE ASSISTANTS

SITE SURVEY

Our Solar Consultant will visit to measure, review, and finalize the plans in your Residential Agreement. We can also make changes to the plan and make sure you're happy with your new system!

2. Planning & Design

The Design Team creates the final blueprints for engineers to stamp and seal to start application processes. Rhythm Solar's Project Managers apply for Permission to Install with utility company and pull permits with your township (Authority Having Jurisdiction) and your amazing Solar Care Assistant will let you know when everything is sent. They will notify you as soon as we're ready to schedule installation!

SCHEDULING

Your Solar Care Assistant will coordinate with you a day and time when installation will begin. Our Expert Installers tend to complete the entire installation on the same day.

3. Installation & Inspections

Your Solar Care Assistant never stops working for you! To ensure we get the system operational, your Assistant coordinates the Final Inspection with your township. Rhythm Solar also provides an Inspections Assistant on-site that will have everything the Inspector will need and be able to answer any questions he or she may have.

PERMIT SUBMISSION & APPROVAL

TOWNS WITH A ROBUST SOLAR ENERGY MARKET USUALLY HAVE THIS PROCESS STREAMLINED, AND APPROVAL MAY ONLY TAKE A FEW DAYS. IN OTHER REGIONS, THE PROCESS MAY TAKE A WHOLE MONTH, OR EVEN LONGER.

4. Finals & Production

You're almost there! Project Managers keep the paperwork flowing and obtain the documentation for approved inspections and get the final application for permission to operate from the utility company. Utility will come swap meter and your Solar Care Assistant will confirm System Turn On with you!

SUPPORT

Your Solar Assistant will remain available to you should you ever need Rhythm's Resources or would like to help someone get into Rhythm, too.

5. Operation & Maintenance

Your Solar System is On! And one last thing, *Rhythm Reputation Guarantee*. Rhythm will monitor your system 24/7 for two weeks to confirm that everything is fully operational. Your Superhero Solar Assistant will then provide you with the full access to monitor your system.
